The Atrisco Road and Drainage Improvements includes sidewalk, storm drain, and minor paving improvements for Atrisco Road, SW between Bridge Boulevard, SW and Five Points Road, SW. The new roadway improvements include construction of curb and five-foot wide sidewalk along the east side of Atrisco Road for the entire length of the project and construction of curb and five-foot wide sidewalk along the west side of the roadway between Hooper Road and Eucariz Road. (See attached map). Additionally, a 24-inch diameter storm drain will be constructed under Atrisco Road between Eucariz Avenue and the Isleta Drain to discharge stormwater runoff to the Isleta Drain. Minor paving improvements include addition of a left turn lane at the Atrisco/Larrazolo intersection for traffic turning east onto Larrazolo Road to handle additional traffic to the proposed South Valley Multi-Purpose Family Service Center. Due to these proposed improvements, new concrete driveways will also be constructed for access to individual properties along Atrisco Road. This construction project will take four months to complete.

The project is funded by various sources. State funding totaling \$277,000 was secured by Senator Bernadette Sanchez, Senator Gerald Ortiz y Pino and Representative Miguel P. Garcia. Additional funding includes \$250,000 from County Drainage Impact Fees and another \$226,937.23 from County Storm Drain Bonds. For the left turn lane at the Atrisco/Larrazolo intersection, \$92,000 will come from the Capital Improvement Project Bond Funds for the South Valley Service Center.
